Professional Summary

Senior full-stack engineer with 5+ years of experience shipping production web and mobile products with React Native (CLI and Expo), Next.js, Node.js and TypeScript. Architects Turborepo monorepos with shared packages and a native-shell mobile architecture with WebView bridging, and integrates LLM-powered features such as an AI chatbot, voice agent and document extraction. Leads a team of 11 engineers, works directly with clients, and owns delivery from requirements to App Store, Play Store and cloud deployments.

Technical Skills

Languages	TypeScript, JavaScript (ES6+)
Frontend & Mobile	React Native (CLI and Expo), React.js, Next.js, Redux, TanStack, Tailwind CSS, shadcn/ui, Storybook
Backend & Data	Node.js, NestJS, Express.js, Hono, REST and GraphQL APIs, PostgreSQL (PostGIS), MongoDB, MySQL
Cloud & DevOps	AWS (EC2, S3, SES, Amplify), Azure, Vercel, Docker, Firebase, CI/CD (Bitbucket Pipelines)
Architecture	Monorepos (Turborepo, pnpm), shared packages, native shell with WebView bridge
AI & LLM	OpenAI API, AI chatbot, voice agent, document extraction; Cursor and Claude
Integrations	Twilio, SendGrid, Razorpay, Stripe, Agora, Google Maps, HubSpot, PostHog
Testing & Process	Jest, Playwright, Git, Jira, Agile/Scrum, App Store and Play Store releases

Professional Experience

Arokee Online Solutions Pvt Ltd

Nov 2020 – Present

Bengaluru, Karnataka, India

Senior Software Engineer (Full Stack)

Sep 2024 – Present

- Lead end-to-end delivery of web and mobile products: requirements analysis, planning, technical direction and mentorship for a team of 11 engineers.
- Architect a Turborepo/pnpm monorepo shared by two products, with shared UI, i18n, analytics, access-control and integration packages across Next.js, React Native and admin apps.
- Designed a React Native native-shell architecture with a WebView bridge, so complex product flows are built once and shared across web and mobile.
- Built and integrated LLM-powered features (AI chatbot, voice agent, brochure data extraction) as shared packages reused across products.
- Own cloud deployments (Azure, Vercel, AWS, Docker) and App Store and Play Store releases.

Senior Software Developer

Sep 2022 – Sep 2024

- Built and shipped React Native and React apps across telemedicine, HRMS, e-commerce, B2B and marketplace products.
- Delivered end-to-end App Store and Play Store releases and worked directly with clients on requirements.

Software Engineer

Apr 2021 – Sep 2022

- Built and shipped React Native and React.js features for client products across multiple domains.
- Integrated payments (Razorpay, Stripe), maps, push notifications and third-party APIs.

Software Engineer Intern

Nov 2020 – Mar 2021

- Built React Native and React.js features with senior engineers; converted to full-time in April 2021.

Key Projects

WorklyNow: Home & Commercial Services Marketplace

React Native · Next.js · Node.js · PostGIS · Azure · Vercel

[worklynow.com](#) · [Customer Web](#) · [Provider Portal](#)

- Architected a monorepo spanning customer and provider mobile apps, a Next.js web app and an admin portal for code reuse and streamlined deployments.
- Designed four booking workflows, including Uber-style real-time emergency dispatch with provider broadcast and acceptance, diagnostic visits, and request-a-quote with negotiation.
- Built PostGIS proximity matching to surface the nearest providers, plus a slot-management system and a custom calendar package for provider availability.
- Created shared packages (Storybook UI library, Azure storage layer, Google Maps, SendGrid and Twilio APIs), custom feature flags and an in-house i18n solution; engineered the React Native shell with native bridging, deployed web apps to Vercel and integrated Intercom for live support.

SqftDreams: Real-Estate / Builders Platform

Monorepo · React Native · Next.js · Node.js

[sqftdreams.com](#) · [Builder Admin](#)

- Engineered a multi-role platform (builders, buyers, admins) on a shared monorepo with a Next.js web app, a React Native shell app and Node.js REST APIs.
- Built an admin dashboard and integrated HubSpot CRM to sync property listings and leads automatically.
- Developed listings and inventory management with media galleries, search, filtering and role-based access control; led the team and handled iOS and web deployments.

Other Selected Projects

Sharpz: Sports Betting Community (US) (React Native, React.js)

[iOS App](#)

Led the team building mobile and web apps that share sportsbook bets in near real time.

EffiHR: HRMS Mobile App (React Native, Desclope)

[iOS App](#) · [Android App](#)

Led and built the app end to end: logins, attendance, custom calendar and push notifications.

Texflow: Garment Job Marketplace (Next.js, React Native, NestJS)

[iOS App](#) · [Android App](#)

Two-sided marketplace with job posts, a social feed and candidate profiles; web and mobile apps.

Echo Accelerator: Freight Brokerage (React Native Expo, React.js)

Built mobile and web modules (carrier profiles, compliance, PowerBI) with Playwright and Jest tests.

Second Consult: Telemedicine Platform (React Native, Agora, Razorpay)

[Website](#) · [Patient iOS](#) · [Doctor iOS](#)

Patient and doctor apps with booking, payments and live audio/video; led client communication.

GreetKaro: Cards & Invitations (React Native, Razorpay, Stripe)

[App Store](#) · [Play Store](#)

E-commerce app with a custom image editor, Razorpay and Stripe payments, and in-app purchases.

Also: Pasolite (B2B app); SignDesk (eSign PDF utilities) [Website](#); iModel (virtual wardrobe monorepo) [iOS App](#); 2xResume (technical advisory) [2xresume.ai](#)

Personal Projects

- WhatsApp Business API + AI Service (Node.js, OpenAI): automates WhatsApp messaging with an LLM.
- Real-time sockets (React Native) and S3 image resizer (Node.js): Socket.IO and scheduled image processing.

Education

Bachelor of Science (B.Sc.), Mathematics and Computer Science

2017 – 2020

Sree Siddaganga College, Tumkur University | CGPA: 8.3
